

## *Discipline*

*A high level of discipline is expected in the school.*

Anyone breaking these rules will be given a period of detention within school hours, after school, or on the weekend.

Consequences are mandatory and students must comply with school rules. No exceptions will be made.

Students will be held responsible for any behavior, whether inside or outside of school, that reflects poorly on the school or its reputation. The administration will act accordingly in such circumstances.

- a) Students are responsible for **paying attention** in the classroom. Students should respect the learning environment for both themselves and their fellow students. Students are required to raise their hands in the classroom and wait to be called on by their teachers. **Talking out of turn** is not acceptable.
- b) Students are expected to complete their **homework** in a timely manner. Homework is provided for the benefit of all students. Copying/plagiarizing homework will not help a student's learning and will result in disciplinary action.
- c) **Eating and drinking** are not forbidden in class or within school buildings.
- d) Students are encouraged to take pride in their school. Students should assist in keeping the buildings neat and clean. This also includes desks and lockers – anyone caught vandalizing school property will be reported and dealt with accordingly. The provided garbage bins should be used for trash.
- e) Mobile devices of all kinds are forbidden in school. This includes mobile telephones, iPods, pagers, and any kind of music device.
- f) Running and playing inside buildings is unacceptable as it is dangerous and disruptive of learning.
- g) Administrative areas are off-limits to unauthorized students.
