

How Did It All Start?

The idea behind this publication began when two girls, Noor Khalil and Aayesh, were talking about the newspaper and interviews that they had seen on television. Then Noor suddenly yelled out and said, "I want to start a newspaper!" Bouncing out of her seat, Leann yelled out, "Yes, we should!" These two girls went into their own world, brain storming ideas on a piece of paper. Their paper was soon filled with emotion: like: nervous, excited, happy, and distressed. Now, you know how a vision can be reality. It has succeeded as you have now read the first publication of this newspaper.

You might be asking yourselves if only these two girls did the newspaper, well the answer is no. An amazing group of people starting with the two teacher leaders, Mr. Ghassan and Mr. Tony and a team of students: Leann Aayesh, Noor Khalil, Fatima Al Ameri, Ghaida Harb, Malak Bakir, Rinad Haimour, and Aamna Hasnain.

A Word from the Founders

I wanted to start the newspaper because I wanted to break my every year routine. I wanted to be excited about every Sunday or any other day and maybe this will be exciting for me as well as you.

- Leann Aayesh

The reason I wanted to write a newspaper was because I wanted something to make our school different from all the others schools.

- Noor Khalil

Littering

Not littering helps our environment stay green and healthy. When you litter, you not only destroy the environment, you also kill the creatures living in the environment. If you used plastic cups and plates, when you threw them on the ground, the next week, your boat and fish there, you might find the plastic cups and plates that you threw a week ago still there on the ocean floor. Fish or other sea creatures eat the cups and plates.
